Java: applying Object-Oriented Programming
Alura · 10 h · 09/2026 · certificate

Java: building your first application
Alura · 8 h · 09/2026 · certificate

Eduardo Izidoro Gazolla

QA Analyst

> QA Analyst at DB1 Global Software since February 2025, working on an automotive retail client's in-house multi-tenant e-commerce platform, with websites and a mobile app. I took part in 3 launches and support one of the live sites, focusing on checkout, payments, integrations and the mobile app. I also build front-end, with end-to-end automated tests in my own projects.

HIGHLIGHTS

3 launches
MOBILE APP · E-COMMERCE
Mobile app (iOS and Android) and 2 e-commerce sites.

~3× faster
POST-DEPLOY
Post-deploy smoke test instead of the full regression (team estimate).

4 products
MULTI-TENANT
Websites and an app for different brands on one platform.

50+ E2E tests
PLAYWRIGHT · AXE
In my portfolio, with a 100 Lighthouse accessibility score.

EXPERIENCE

QA Analyst — Feb 2025 – Present

DB1 Global Software · Automotive retail client
In-house multi-tenant e-commerce platform, with website and mobile app tenants.

- Tested the **e-commerce mobile app launch** (iOS via TestFlight and Android) with exploratory, functional and production smoke tests on every release.
- Took part in the **launch of two e-commerce sites** on the same platform.
- **Support a live e-commerce site**, running regression and smoke tests on every production deploy.
- Validate **OMS, ERP and payment gateway integrations** and back-office features such as product groups, badges and info cards.
- Write **BDD/Gherkin test cases** covering happy paths, negative scenarios, edge cases, risks and gaps for each tenant.
- Log bugs in Jira with **severity and layer** (front, back, API, services), telling bugs from rework by the acceptance criteria.
- Work in a large squad alongside developers and the PO.

Administrative Assistant — Jan 2023 – Feb 2025

Loja Comac · Cianorte, Brazil

IT Intern — Jan 2022 – Jan 2023

IAT – Instituto Água e Terra (state environmental agency) · Cianorte, Brazil

PROJECTS

Personal portfolio — 2026

Next.js · React · TypeScript · Playwright · eduardogazolla.dev

- Bilingual site (PT/EN) with content from a headless CMS and a contact form validated on client and server.
- **400+ unit tests** (Jest + Testing Library) and **50+ Playwright E2E tests** covering navigation, keyboard, language switching, the form and accessibility (axe).
- Lighthouse score of **100 for Accessibility, SEO and Best Practices**.

Hour Sync — 2024

React · TypeScript · Tailwind · Node · hoursync.vercel.app

- Time-tracking system built as a college capstone project, with an admin dashboard and per-employee reports.
